OUR FACILITY

Our new University of Michigan C.S. Mott Children's Hospital is a state-of-the-art facility designed to provide cutting edge care in an environment that makes patients and families feel comfortable and welcome.

We offer a wide range of programs and activities for children and families to enhance the experience during their visit, including:

- A family resource center that provides access to computers, reading materials, and art supplies
- Art Therapy to help patients build long-term coping skills
- Music Therapy to encourage patients to express feelings, and promote relaxation through music
- Medical Play and Procedure Preparation to help reduce patients' anxieties about medical procedures by educating them about diagnoses, procedures and treatments

A Multidisciplinary Team of Expert Physicians and Healthcare Professionals Providing Customized Care to Children with Solid Tumors
Welcome to the Pediatric Solid Tumor Program at the University of Michigan C.S. Mott Children’s Hospital.

Pediatric cancers are different from adult cancers, primarily because childhood cancers are extremely rare and complex. A specialized team of healthcare professionals is required to care for a child with cancer. The University of Michigan C.S. Mott Children’s Hospital Solid Tumor Oncology Program is one of the largest pediatric oncology multidisciplinary teams in the United States, providing comprehensive care for all children with solid tumors including neuroblastoma, Wilms tumor, liver tumors, and sarcomas.

**OUR SPECIALTIES**
- Renal Tumors (Wilms Tumor)
- Neuroblastoma
- Hepatoblastoma
- Soft Tissue Sarcomas
- Rhabdomyosarcoma
- Ewing Sarcoma
- Germ Cell Tumors
- Melanoma
- Metastatic Tumors
- Recurrent and Resistant Diseases
- Children’s Oncology Group Phase 1 Center

**OUR TEAM**
We conduct a multidisciplinary team conference once a week in which members from different pediatric specialties gather to discuss your child’s particular case. Once we have come to a consensus with regards to the best treatment approach for your child, we will meet with you one on one to discuss our recommendations. Our experts include:

- Pediatric Surgeons
- Pediatric Oncologists
- Nurse Practitioners and Nurses
- Pathologists
- Diagnostic and Interventional Radiologists
- Licensed Clinical Social Workers
- Radiation Oncologists
- Child Life Specialists
- Dieticians and other Specialists as needed

**RESOURCES AND SUPPORT**
Our program coordinator will help families and referring physicians through every step of the treatment process. We also offer assistance for patients traveling long distances, or that may require additional family services and support including:

- Providing emotional support, resources and counseling to patients and loved ones learning to cope with a new illness
- Coordinating discharge, transfer to other hospitals, and home services after a child is discharged from the hospital
- Assisting with financial need issues including transportation, lodging, food, and other costs associated with having a child in the hospital
