

From the Office

Time to say welcome home to our summer sojourners and farewell to our snow birds. Drs. Thompson and Greenfield will be heading west soon but we welcome back Drs. Lindenauer and Turcotte from the north country. We hope all of you will be around for some of the important and exciting Department activities of this early Fall season. Descriptions and dates for these events are listed below, along with the next few months of Surgery Grand Rounds presentations. And, off course, we all will be cheering the Wolverines to the Big Ten Championship!

In CSEF news, the Center has become the central hub for Milestone Publishing, a new Department venture into the publishing arena, which you'll be hearing more about soon. As always, if we can be of any assistance to you in your new or old ventures stop by, give us a call or send us an e-mail!
