

From the Office

As Department activities wind down for the Summer, plan to take advantage of one of the remaining, and perhaps most important events of the year, the 75th Annual William J. Mayo Lecture. Lecture details are presented below but in addition, consider supporting our residents at the research presentations from 1:00-3:30 pm in the Turcotte Library, 2205 Taubman Center.

The office staff continues work on many and varied projects for our surgery emeritus faculty. And as a reminder, our services are offered à la carte, meaning you can take advantage of any or all of what the CSEF has to offer. If you are unsure what services we provide, our staff would be happy to fill you in. Have a great Summer!

Cindy

Lucinda A. Cooke, Emeritus Office Coordinator

A STAR IS BORN

Dr. Jeremiah Turcotte has reached movie star status! He was recently interviewed by the Today Show for an upcoming feature on the career of Jimmy Crudup. As noted in the Winter Focus, Dr. Turcotte was selected and interviewed for the Center for the History of Medicine's Oral History project and will be featured in a video by Michigan Multimedia, also highlighting the work of Jimmy Crudup. Dr. Turcotte's autograph is available for a small donation to the CSEF...

THOMPSON'S TRAVELS

Dr. Norman Thompson reports having a great time in Halle, Germany. Dr. Thompson was there to deliver a lecture entitled "The Surgeon as a Risk Factor in Thyroid Surgery" at a post-graduate course. He also managed to get in a little sightseeing and collegial fellowship. Dr. T is on his way to Poland on May 17.

EMERITUS NEWS

The 4th Annual Greenfield Research Awards sponsored by the Section of Vascular Surgery were presented at Surgery Grand Rounds on May 4, 2006. Pictured are the proud recipients with an equally proud Dr. Lazar Greenfield. A breakfast followed the presentations.

Dr. Lazar Greenfield was also honored by Boston Scientific. Following a long-standing tradition of naming their conference rooms after "great innovators of their time," Dr. Greenfield was informed that one of the conference rooms in their new facility will bear his name as "a thank you for your many contributions to vascular and peripheral interventions." Congratulations.

Dr. Robert Bartlett has started his emeritus career in fine fashion with a sailing "voyage" lasting for the next two months. We look forward to Dr. Bartlett's travel log.

Dr. Martin Lindenauer will also be embarking on an extended trip out west and back through the national parks of the U.S. Dr. Lindenauer and the CSEF staff are continuing their work on the Civil War letters of Dr. George Barr for the Clements Library.

FUTURE DEPARTMENT EVENTS

75th Annual William J. Mayo Lecture will be held on Thursday, May 25, 2006 at 4:00 pm in Ford Amphitheater. The lecture "the Alphabet Versus the Goddess: Brain Lateralization and Its Effect on Culture, Religion, and Gender" will be delivered by Dr. Leonard Shlain, from the California Pacific Medical Center in San Francisco and author of *Art & Physics* and *The Alphabet Versus the Goddess*

Coller's Colorful Quarterly Quote

"One of my aphorisms: Laparotomy is a disease"
Frederick A. Coller, MD - 1943
